Summary

A skilled Frontend Developer with extensive experience in building responsive and high-performance web applications using React.js, JavaScript (ES6+), and modern UI frameworks. Proficient in architecting and developing complex, dynamic user interfaces through reusable component libraries and efficient state management.

My focus is on creating intuitive and seamless user experiences by leveraging modern frontend tools and best practices. I am passionate about performance optimization, clean code architecture, and staying current with emerging technologies to deliver exceptional frontend solutions.

Education

Maharshi Dayanand University (MDU), BCA (Bachelor of Computer Applications) – Pursuing (2nd Year) | 2024 – Present

- Currently in 2nd Year
